MAINTENANCE BULLETIN

AN/TPQ-36 RADAR	FILE NO.	151	REVISION:
	DATE:	1 JULY 1995	CATEGORY:
SUBJECT	SYSTEMS AFFECTED:		
STOCKAGE REALIGNMENT	US ARMY		

Sixteen (16) DS Class IX ASL items for Independent Brigade (One AN/TPQ-36 plus ready Brigade Support) are to be attached to, and located AT HHB FA BN. These items presently appear in Chapter 1, DS CLASS IX ASL column, of Technical Manual MPL 11-5840-363-24P, "MANDATORY PARTS LIST", dated 30 November 1992. Upon revision of the technical manual the parts will be shown in the AT HHB FA BN column of the same chapter, and will be marked with an asterisk (*) to explicitly denote which items have moved to the AT HHB FA BN.

These (16) items will now comprise a kit. The kit will be called out in the column, with the items indented to show that they make up the kit. For example:

ITEM (HEAD OF FAMILY NBR NIIN SEQUENCE)	STOCK NUMBER	SMR CODE	NUMERICAL STOCKAGE OBJECTIVE			KIT
			PER RADAR SITE	AT HHB FA BN	PLL TOTAL	
2. 5840-01-XXX-XXXX *5840-01-073-5483	PAODD			1		1

←

Units will not be able to order the kit separately, it will be coded as initial issue "only" order by component. This fact will be annotated in the updated Initial Mandatory Parts List (IMPL). The PM MEMORANDUM directing the unit to keep all items in their MPL as critical and necessary to maintain operational readiness was distributed on 24 Feb 94. It was explained that these items were "Initial Issue" and were, therefore, not subject to the HQ DA Message DALO-SMZ-212018Z, March 1990, which suspended the mandatory requirement to stock these items. Each unit is therefore responsible for maintaining stockage of those items that they may have previously turned in for reimbursement. They will not be free issued by the PM or DA except in the case of a new fielding. This is in keeping with the original FIREFINDER philosophy.
